4. (U/FOUO) DDA Rankings

In July, all DDA officers in grades GS-15 through GS-18 will be ranked. This ranking will not be by category but rather sequentially, by grade. It is anticipated that the DDA listing will be integrated with similar listings compiled by other Directorates to yield an Agency-wide ranking.

5. (U/FOUO) Industrial Security Program

The Director of Security has asked the Chief, Physical Security Division and several selected officers to examine the overall issue of an industrial security program. This review will focus on the organization, functions, positions and other considerations inherent in the development and implementation of such a program. The Director of Security has asked for the group's recommendation within the next three weeks.
